

The Works of Saint Augustine

A translation for
the 21st century

Catalog 2020-21

New City Press

*Fostering a culture
of unity and dialogue*

Just thirty years ago English, alone among modern languages, lacked any organized effort to translate the entirety of the works of Saint Augustine. Existing translations of even limited passages could be archaic or faulty, or the scholarship outdated. A figure so vital to the Church and the broader civilization was sadly neglected by a language so important in the modern world.

To remedy this great neglect, the Augustine Heritage Institute (AHI) was founded in 1990 under the direction of the late Fr. John E. Rotelle, OSA, a legend in patristic circles. For thirty years the AHI has labored in conjunction with New City Press on *The Works of Saint Augustine: A Translation for the 21st Century*. As the publisher of New City Press I am excited to announce that this great project has now completed forty-four volumes of what within this decade will be the complete forty-nine volumes of all Saint Augustine's works.

Homilies on the Gospel of John (41-124)

Hardcover **\$69.00**
978-1-56548-108-4
599 pp.

Few ancient Christian authors attempted anything like a complete commentary on the Gospel of John, among them Origen, John Chrysostom and Augustine. Of these, Augustine's must count as the greatest. Unlike Origen's, it has come down to us in its entirety, and of the others that remain it is certainly the most theologically profound. John's gospel allows Augustine to range broadly over themes that were his life's work—the Trinity, the person of Christ, the nature of the Church and its sacraments, the fulfillment of the divine plan.

The 124 homilies that constitute Augustine's commentary, however, are masterpieces not only of theological profundity but also of pastoral engagement. In the question-and-answer style that he frequently employs, for example, one can sense Augustine's real awareness of his congregation's struggles with the gospel text. And the congregation's response to Augustine, which he frequently alludes to, is an indication of the success of his dialogical preaching style.

Translation and notes by Edmund Hill, OP, edited by Allan D. Fitzgerald, O.S.A., Boniface Ramsey, series editor.

The Trinity

In the first seven books Augustine searches the scriptures for clues to understanding the Trinity and then defends the orthodox statement of the doctrine against the Arians. In the last eight books Augustine seeks to understand the mystery of the divine Trinity by observing an analogous trinity in the image of God, which is the human mind; and in so doing, he also suggests a program for the serious Christian of spiritual self-discovery and renewal. Translation, introduction and notes by Edmund Hill, OP, John E. Rotelle, editor.
